Speaker: Jan Hanson, M.A.
Food allergy educator and author

Jan's new book *Food Allergies and College: Your Complete Planning Guide*, is a comprehensive "how to" for college-bound teens with food allergies and their families. She will address the process in stages, up to and including living safely at college.

Jan is a food allergy educator whose two sons attended college with food allergies. She is a former college administrator and worked as the Assistant Director of Residence at Simmons College.

Copies of the book will be available for purchase.

This is a great opportunity for teens and parents to connect with others with food allergies.
